-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE **1** MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 6) ☐ Other: ____.

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 8, 12, and claims 1, 13, 26 in part, drawn to a compound wherein R¹ is a 5-membered heterocyclic ring, its composition and process of making. A species election is required if this group were elected.

Group II, claim(s) 10, 38, and claims 1, 13, 26 in part, drawn to a compound wherein R¹ is a 6-membered heterocyclic ring, its composition and process of making. A species election is required if this group were elected.

Group III, claim(s) 11, 39, and claims 1, 13, 26 in part, drawn to a compound wherein R¹ is a bicyclic group, its composition and process of making. A species election is required if this group were elected. Further restriction may be required.

Group IV, claims 27-35, drawn to multiple methods of using the compound for treating diseases. An election of a species compound and a single disease is required if this group were elected.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: a 5-membered heterocyclic ring of Group I, the 6-membered heterocyclic group of Group II, and the bicyclic heterocyclic ring of Group III would not have been of sufficient similarity to

allow a markush grouping exhibiting unity, absent teaching of equivalence in the prior art.

Under PCT Rule 1.31 and 13.2 and 37 CFR 1.475, an application containing claims to different categories of invention will be considered to have unity of invention if the claims are drawn to one of the following combinations of categories:

- a. A product and a process especially adapted for the manufacture of the said product; or
- b. A product and a process of use of said product; or
- c. A product, a process specially adapted for the manufacture of the said product, and a use of the said product.

This application contains claims to more than one of the combinations of categories of invention set forth above since it contains multiple different processes of use as described in Group IV inventions.

3. Applicant is requested to select a single disease/conditions from Group IV to be examined with the Group I, Group II or Group III compound invention.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention and a species within the elected invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
